

ENGAGEMENT OVERVIEW

Fleet Maintenance Audit

A structured, data-driven analysis of where your maintenance spend is going — and a clear roadmap for getting it back. Most clients identify \$40K+ in recoverable costs.

TYPICAL ENGAGEMENT
TIMELINE

01

Maintenance Spend Analysis

12 months of invoices reviewed by repair type, vehicle class, and vendor. Top cost drivers identified and benchmarked against industry standards for your fleet profile.

02

PM Compliance Review

Actual vs. scheduled PM intervals analyzed by vehicle and fleet-wide. Root causes of PM misses identified and downstream costs quantified.

03

Vendor Pricing Assessment

Active vendor invoices audited for pricing consistency and market alignment. Above-market vendors flagged and total overspend calculated by category.

04

Downtime & Availability Analysis

Vehicle downtime records reviewed for repeat offenders and patterns. Relationship between PM compliance gaps and unplanned repair frequency quantified.
