

ENGAGEMENT OVERVIEW

Fleet Operations Assessment

A structured evaluation of your full fleet operation — staffing, workflows, utilization, and compliance — identifying where the operation is underperforming and what to fix first.

4–5

WEEK ENGAGEMENT
TIMELINE

ASSESSMENT SCOPE — SIX CORE AREAS

01

Staffing Model & Org Structure

Headcount, roles, and reporting lines evaluated against the fleet's size and operational complexity.

02

Workflow Efficiency

Dispatch, PM scheduling, and breakdown response processes reviewed for gaps, delays, and redundancies.

03

Asset Utilization

Utilization rates by vehicle and asset class. Right-sizing opportunities identified and quantified.

04

Compliance Posture

DOT, OSHA, insurance, and licensing requirements reviewed. Exposure areas flagged with remediation priorities.

05

Vendor Relationships

Current provider network reviewed for coverage gaps, pricing structure, and performance accountability.

06

Maintenance Cost Structure

Spend benchmarked against comparable fleet profiles. Cost per unit calculated and assessed.

WHAT YOU RECEIVE

- Full written operations assessment report
- Prioritized improvement roadmap
- KPI framework and measurement plan
- Implementation guidance by initiative
- Findings presentation with Q&A session
- 30-day follow-up Q&A support
